

## CounterPath X-Lite 3.0 Telephony Client

CounterPath's X-Lite 3.0 is the market's leading free SIP based softphone available for download. Based on the advanced architecture of [eyeBeam 1.5](#) (CounterPath's carrier grade telephony client), the new X-Lite is designed to showcase some of the feature rich capabilities available with our commercial softphone such as superior audio and video quality, zero-touch configuration, IM & Presence, and a comprehensive personal address book.

[Open the X-Lite 3.0 User Guide](#)  [here](#).

Users who subscribe to a VoIP or Broadband service will be able to experience the power of X-Lite as CounterPath enables them to communicate anytime, anywhere by bringing their communication experience directly to the end-point. With its intuitive & familiar interface, users can seamlessly transition from a traditional hard phone environment into the world of Voice over IP. Also by making the navigation simple and user friendly, X-Lite provides users with easy access to video and address book management. Whether its users are having a simple voice conversation or hosting a conference call with multiple collaborative applications, X-Lite leads people down the new path of personalized communications.

## Features
